

## **The Second Announcement and Call For Paper**

### **The 12th Chinese Microwave Power Application Symposium**

**October 17-19, 2005, Chengdu, China**

---

Based on the Chinese Electronics and Microwave Committee's arrangement, the 12th Chinese Microwave Power Application Symposium, which is hosted by University of Electronic Science and Technology of China and Chengdu Guoguang Electron Tube Works, will be held in Chengdu, Sichuan of China, on October 17-19, 2005. The theme of the Symposium is " More Information Exchange, Wider Cooperation and Quicker Development".

This Symposium will provide us an excellent opportunity for researchers in the field, to meet, make acquaintance and share interests and experiences which might lead to future collaborations, thus promoting the development of microwave power application. Some distinguished specialists both in China and abroad will give keynote presentations during the Symposium.

#### **Paper Preparation and Submission Information**

Topics considered in the Symposium are concerning theories, techniques and applications of microwave power in the fields of industry, chemistry, new materials making, plasma and so on. Original papers are solicited for presentation and publication in the symposium proceeding. Authors are requested to submit electronic version and 2 hard copies of camera-ready paper. Papers should be within four pages, consisting of the title, author's name, affiliation, address, e-mail address typed single spaced and doubled columned on one side of A4-size paper within 17cm×24cm. Clear tables, line drawings, and photographs can be included anywhere in the paper. Electronic versions are encouraged to be sent to [pengy@uestc.edu.cn](mailto:pengy@uestc.edu.cn). Accepted formats are .pdf, .ps, and .doc.

Papers should be submitted to:

**Mrs. Peng Jun**

**College of Physics and Electronic, University of Electronic Science and Technology**

**Chengdu, China, 610054 e-mail: [pengy@uestc.edu.cn](mailto:pengy@uestc.edu.cn) , [pengy\\_bin@sina.com](mailto:pengy_bin@sina.com)**

**Tel: 0086-028-83202009, 13568840187**

**Fax: 0086-028-83202009**

#### **Important Deadlines**

**Final manuscript Paper for publication deadline: September 15, 2005**

**Accepted paper notification: September 30, 2005**

**Advance registration deadline: October 10, 2005**

**Registering fee:** \$200 USD (per register)

**Students** \$100 USD

### **Symposium and Registering Location:**

**Jin-Niu Hotel**, Participants will be met and guided from airport to hotel.

### **Correspondent services Offered by the Symposium**

1. Food and events are arranged by the Committee during the conference, the cost is covered by registering fee. The expenses for hotel and sightseeing tour will be taken care by participants.
2. Return tickets can be booked by Committee.
3. Sightseeing tours to Mt. Jiu-zhai , Emei , Bi-feng and Leshan Giant Buddha , Du-jiang Dam and so on will be arranged after the Symposium (Optional). Fees are covered by participants.

**Accommodation:** **Jin-Niu Hotel**

### **Draft Program of Activities:**

October 16-17, 2005: Registration

October 17, 2005: Opening remarks, Welcoming remarks, Keynote addresses, Invited speaking.

October 18-19 2005: Paper Presentation

October 19, 2005: Visiting to some Companies of MPA in Chengdu and Workshop.

October 20 after 2005: Sightseeing tours arrangement (Optional).

**Sponsored by Microwave Branch and Vacuum Electronics Branch of Chinese Institute of Electronics.**

**Organized by University of Electronic Science and Technology of China,**

**Chengdu Guoguang Electrical Group Company**

**Meide Microwave Oven Co., Ltd.**

## **Chengdu - Host City**

Chengdu, the famous historical and cultural city, is located in the hinterland of the West Sichuan Plain known as the "Land of Abundance" since ancient times. It is the hometown of China's rare animal, the giant panda. The grand Dujiangyan Irrigation Project, which is hailed as one of the sites of ancient civilization, is also located in it. The West Sichuan Plain has countless rivers and ditches and has beautiful natural scenery. Chengdu has both high mountains and low-lying valleys. Just like its changing geographical feature, Chengdu has experienced ups and downs in its 2,300-year history. Despite countless upheavals in its history, the city has survived and is thriving. This is precisely where the charm of the city lies. Indeed, Chengdu is both ancient and young, peaceful and prosperous. With the deepening of China's reform and opening to the outside world, Chengdu has undergone tremendous changes.

Let us meet in a modern, civilized and open Chengdu.
